

Muhammad Fahd

Senior Software Consultant — Full-Stack .NET & React, Cloud-Native Solutions on Azure

Islamabad, Pakistan · +92 304 121 3962 · malikfahdnadeem@gmail.com · linkedin.com/in/muhammad-fahd

Senior Software Engineer with 7.5+ years delivering scalable, secure, high-performance software across diverse business domains. Core expertise in full-stack development with .NET and React — building robust APIs and enterprise systems on ASP.NET Core, .NET 6+, Web API and MVC, alongside modern, responsive interfaces with React and TypeScript. Azure-certified (Developer Associate & DevOps Engineer Expert), with deep hands-on experience across SQL Server, MySQL, and Cosmos DB, and a strong track record in Agile/Scrum delivery from requirements through production support.

EXPERIENCE

Senior Software Consultant — 10Pearls

Sep 2024 - Present

Islamabad, Pakistan · Hybrid

- Contribute to multiple large and small-scale products for a leading audit firm across a diverse technology stack spanning backend, frontend, and cloud.
- Build cloud-native services with .NET 6 and Azure Functions, backed by Azure SQL Database, Blob Storage, and Event Grid.
- Deliver front-end experiences with React and Liquid Templates; automate workflows with SharePoint, Power BI, and Power Automate.

Key skills: .NET 6 · Azure Functions · Azure SQL · React · Power BI · Logic Apps

Software Engineer — Synergy-IT Pakistan

Jul 2021 - Sep 2024

Islamabad, Pakistan · Full-Stack Developer, Studi.ly / Studica (Denmark's 2nd largest IT company)

- Owned features end-to-end across the full SDLC for Studi.ly's education platform — analysis, development, testing, and deployment.
- Built front-end experiences with React, TypeScript, and FluentUI; built and managed Web APIs with ASP.NET (C#) across .NET Framework and .NET Core.
- Delivered modular, secure backend solutions using Azure SDKs, Cosmos DB, and Microsoft Graph APIs.

Key skills: React · TypeScript · ASP.NET Core · Cosmos DB · Microsoft Graph · FluentUI

Senior Software Engineer — TEO International

Jan 2021 - Jul 2021

Islamabad, Pakistan · Dantaxi, Moove & Plot (Denmark's largest online cab & parking services)

- Led analysis, development, and deployment of scalable backend systems with ASP.NET MVC, Web API, .NET Core, and Entity Framework.
- Managed databases and ensured data integrity with Microsoft SQL Server; maintained quality through unit testing and code reviews.

Key skills: ASP.NET MVC · .NET Core · Entity Framework · SQL Server · Windows Services

Software Engineer — TEO International

Mar 2019 - Dec 2020

Islamabad, Pakistan · Dantaxi, Moove & EDC (leading Danish transport & real estate organizations)

- Contributed to end-to-end development of enterprise web applications, from requirement analysis through deployment.
- Built backend systems with ASP.NET MVC, Web API, and C#, plus background processing via Windows Services.

Key skills: C# · ASP.NET MVC · Windows Services · SQL Server

Trainee Software Engineer — TEO International

Nov 2018 - Feb 2019

Islamabad, Pakistan

Software Engineer (ERP) — AiSoft System Developers

Jun 2018 - Oct 2018

Islamabad, Pakistan
